

A New Era for the Perimenopausal or Menopausal Woman

Wednesday, March 22, 2023

12 – 1 p.m.

Target Audience

Primary care physicians, family practitioners, internal medicine specialists, physician assistants, nurse practitioners, nurses, menopause specialists, OB/Gyns, pharmacists, reproductive endocrinologists and geriatricians.

Learning Objectives

- Review the role of estrogen during a woman's lifespan.
- Describe menopause's effects on a woman's health and quality of life.
- Update current guidelines for menopausal hormone therapy (MHT).
- Discuss benefits and risks of available and emerging treatments for vasomotor symptoms (hot flashes) and vulvo-vaginal atrophy (vaginal dryness).
- Integrate discussion about menopause symptoms and shared decision-making with menopausal women.
