

Deprescribing Medications for the Elderly

Wednesday, May 31, 2023

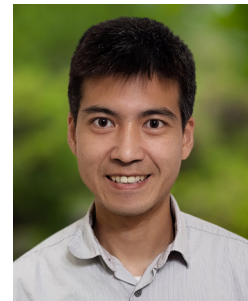

12 – 1 p.m.

Target Audience

Primary care physicians, advanced practice clinicians and all interested care staff are welcome.

Learning Objectives

- Define deprescribing and how it may help geriatric patients and their families.
- Identify evidence to deprescribe common geriatric medications, including statins, antihypertensives, aspirin and PPIs.
- Discuss strategies to approach deprescribing.
