

ALS: Disease-Modifying Therapies and System-Wide Programs

Wednesday, June 5, 2024 12-1 p.m.

Target Audience

Neurologists, physical medicine and rehab clinicians, palliative and primary care physicians, and all interested healthcare professionals are welcome.

Learning Objectives

- Recognize ALS symptom burden and the multidisciplinary team's role in care.
- Identify currently approved disease-modifying treatments, developments and therapies for genetic ALS.
- Examine the need to integrate interventional research trials into clinical care to speed therapy development.
