

# Screening and Prevention for Breast, Colon and Lung Cancers

**Wednesday, October 11, 2023**

12 – 1 p.m.

## Target Audience

All primary care providers and interested care staff are welcome.

## Learning Objectives

- Review current screening guidelines and ages for breast, colon and lung cancer.
- Discuss potential benefits of regular screening, including early detection, treatment initiation and reduced mortality.
- Consider a Lung Nodule and Cancer Screening Program as a less-known screening option for at-risk people.
