

The Case for Health Professional Involvement in Climate Advocacy

Wednesday, April 20, 2022

12 – 1 p.m.

Target Audience

All providers and interested care staff are welcome.

Learning Objectives

- Learn the impacts of climate change on human health and the practice of medicine.
- Identify populations most at risk of climate-change health impacts.
- Understand environmental issues affecting the health of Bay Area residents and their relationship to climate change.
- Learn solutions to the climate crisis that are also health solutions.
- Understand why health professionals' voices are important and needed to effect change to protect patients' health.
