

Fentanyl Crisis and the Role of Healthcare Workers

Wednesday, August 17, 2022

12 – 1 p.m.

Target Audience

Doctors, nurses, case managers, substance use navigators, discharge planners and all interested care staff are welcome.

Learning Objectives

- Recognize the morbidity and mortality rates of fentanyl poisoning.
- Discuss regulatory and policy updates for screening and treatment.
- Prioritize changing the stigma surrounding patients seeking treatment.
- Apply medication-assisted treatment (MAT) to treat a patient suffering from fentanyl addiction.

Adam Dougherty, M.D., MPH

Vice Chief, Emergency Medicine
Assistant Medical Director and
Advocacy Director
Sutter Medical Center, Sacramento
