

Medication Assisted Treatment for Opioid Withdrawal

Wednesday, January 12, 2022

12 – 1 p.m.

Target Audience

Hospitalists, surgeons, OB/Gyns, psychiatrists, physiatrists and all other care staff are welcome.

Learning Objectives

- Outline buprenorphine induction as a first-line opioid agonist for opioid use disorder treatment.
- Weigh the concurrent conditions or factors in determining the appropriateness of suboxone MAT induction for a given patient
- Understand the collaborative approach to suboxone induction and how to engage nursing, pharmacy and substance use navigators.
- Be aware of resources available for advice and further learning.
