

Advanced Interventional Spine Therapies: The New Frontier

Wednesday, November 2, 2022

12 – 1 p.m.

Target Audience

Primary care providers, orthopedic surgeons, neurosurgeons, neurologists, rheumatologists, radiologists, chiropractors, physical therapists, integrative medicine practitioners and anyone who manages patients with chronic low back pain.

Learning Objectives

- Discover new therapy options that land between conservative care and spine surgery for chronic low back pain.
- Review evidence for these therapies for specific conditions.
- Compare risks and benefits of interventional therapies with other therapies, such as medications, to manage chronic low back pain.
